MAGIC TREE HOUSE #7: SUNSET OF THE SABERTOOTH

Book Summary

TARGET AGE: 6-9 year olds
FONTAS AND PINNELL: Level M

Sunset of the Sabertooth is written by Mary Pope Osborne. It is book #7 in the Magic Tree House series. Jack and Annie go on another adventure during Ice Age and must complete their mission there before coming face to face with a dangerous sabertooth tiger.

Before Reading Activity

Taking the time to introduce a book before students begin reading gives them a chance to understand what they are about to read. Before reading this book, have your students complete the first worksheet in their packet titled "Getting Ready to Read." During this time, students can activate their prior knowledge and set a purpose for their reading. Discuss the students' answers to the questions together as a group before they begin reading the book.

Graphic Organizer

Graphic organizers are a great way for students to keep track of story details and their thoughts as they read. There is a book specific graphic organizer that is provided in this resource. It is included in the student packet and can be a graphic organizer that students revisit throughout the course of the book as they learn new details and information.

Vocabulary

Vocabulary is an important part of reading comprehension. Cut out the vocabulary word cards. Use these cards to teach your students the meaning of each word. At the start of your guided reading session, explicitly teach your students the four vocabulary words
